PROFESSIONAL SUMMARY

Final-year Computer Science & Engineering student specializing in Java backend development, AI-powered applications, and cloud infrastructure. Built and deployed full-stack AI systems serving real-world use cases, with internship experience in machine learning and web development.

TECHNICAL SKILLS

Languages: Java (SE), Python, C, C++, SQL

Frameworks & Libraries: Spring Boot, Spring, PyTorch, scikit-learn, NumPy, Pandas, OpenCV, Hugging Face, Matplotlib, Seaborn

Cloud & Tools: Oracle Cloud Infrastructure (OCI), Git, GitHub, Docker (basics), Linux/Unix, Bash, Jupyter Notebook, Google Colab, VS Code

CS Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), System Design, DBMS, REST APIs, Agile/Scrum

PROFESSIONAL EXPERIENCE

Edunet Foundation (in collab. with AICTE & Shell India Pvt. Ltd.)

Jun 2025 - Aug 2025

AI / ML Intern

New Delhi

- Collected and preprocessed datasets from multiple sources, ensuring 95%+ data quality and consistency for ML model training.
- Performed EDA using Pandas, Matplotlib, and Seaborn - uncovering key features, outliers, and correlations across 10,000+ data points.
- Implemented supervised machine learning algorithms using scikit-learn and PyTorch; improved baseline model accuracy by ~15% through feature engineering and hyperparameter tuning.

TechOctanet Services Pvt. Ltd.

Jun 2024 - Aug 2024

Web Development Intern

Gurugram

- Participated in structured code reviews; identified and resolved 20+ bugs, consistently adhering to industry coding standards and best practices.
- Debugged and resolved cross-platform compatibility issues, reducing reported defects by approximately 25% over the internship period.
- Contributed feature proposals during Agile sprint planning sessions; two suggestions were approved and shipped to production.

PROJECTS

ConsultCA -AI-Powered Legal & Financial Advisory Platform

Jan 2026 - Mar 2026

Tech Stack: React, Tailwind CSS, OpenAI API, Supabase (PostgreSQL), REST APIs | [\[Live Demo ↗\]](#)

- Architected a full-stack AI platform using React and OpenAI API to automate CA workflows and resolve complex tax queries in real time.
- Built a Supabase (PostgreSQL) backend for auth, session management, and query history with secure multi-user data isolation.
- Built an LLM-driven compliance engine capable of simplifying regulatory checks, reducing manual lookup time by ~60% for test users.

HarshTrains -Browser-Native AI Fitness Coaching App

Oct 2025 - Dec 2025

Tech Stack: JavaScript, HTML5 Canvas API, CSS3, REST APIs, MediaPipe / TensorFlow.js | [\[Live Demo ↗\]](#)

- Engineered a browser-native AI fitness app (zero install) using JavaScript and HTML5 Canvas API for real-time cross-platform rendering.
- Implemented computer-vision-based human pose estimation to track joint positions frame-by-frame during exercises, providing live form feedback to users.
- Optimized inference pipeline for mobile (Android-compatible) achieving <100ms per-frame latency on standard hardware using lightweight ML model quantization.

EDUCATION

K.R. Mangalam University, Gurgaon

Jul 2023 - May 2027 (Expected)

B.Tech in Computer Science & Engineering

New Delhi Public School, Vikas Puri |10+2 - Science, CBSE| 2022

CERTIFICATIONS

- Oracle Cloud Infrastructure Generative AI Professional (2025) [\[View ↗\]](#)
- Oracle Cloud Infrastructure Developer Professional (2025) [\[View ↗\]](#)
- Oracle Cloud Infrastructure Multi-Cloud Architect Professional (2025) [\[View ↗\]](#)
- Oracle Cloud Infrastructure Certified Foundations Associate (2025) [\[View ↗\]](#)
- Infosys Springboard - Database & SQL Certified [\[View ↗\]](#)

ACHIEVEMENTS & EXTRACURRICULARS

- GirlScript Summer of Code (GSSoC) - Open-Source Contributor.
- NCC Sergeant | NCC 'A', 'CATC' Certificates - Leadership, discipline, and team coordination.
